

Grant Overview

- A. Identify Areas for Potential Economic Expansion
 - Products that could be produced on the Island
 - Services that are needed on the Island
 - Opportunities for events, workshops, courses, etc.
- B. Which areas identified above are feasible?
- C. Is there interest in producing the products, providing the services, and/or organizing the events/courses that are identified from the actions above?
- D. For those areas where there is interest, are they feasible (raw material availability, skills/technical knowledge, adequate market share; etc.)?
- E. Where there is interest and potential feasibility, conduct feasibility studies for specific potential or expanding businesses. These studies will provide basic assessments of applicable items, such as:
 - Raw material availability and cost
 - Permits needed
 - Employee availability
 - Financing needed
 - Financing options (including loans, grants, tax incentives, etc.)
 - Markets, customer base, etc.
- F. Identify feasible projects, develop business plans, and identify resources and technical expertise to assist them.
- G. Develop a long-term plan for economic retention, expansion, and recruitment.

Washington Island Economic Development Plan - Business Survey
